

You can contact me by Phone or email

Lisa, your local area coordinator is here to help with;

You: thinking about how to make life better and looking at what you have to offer

Connecting with others: linking people together and being part of your community

Information: finding out about what's happening in your area and getting the right help from services

Taking action: making positive steps

Public Health
Leicestershire County

A Local Area Coordinator

- Normally works in community buildings
- Works in partnership, with other groups and services
- Develops networks to increase opportunities
- Provides information

We work with local people, local and county wide organisations and services to promote opportunities for people who may be at risk (vulnerable) or trying to cope with daily life due to their age, disability or low level mental health needs and those who are socially isolated

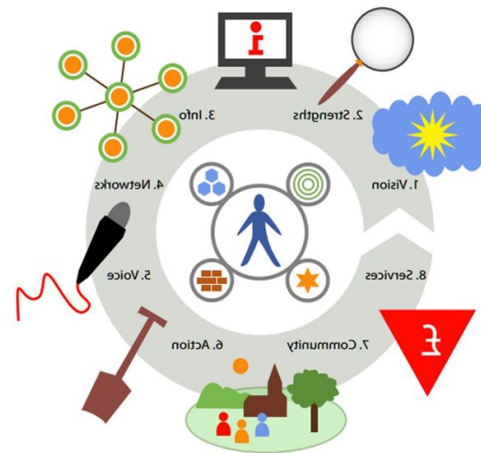

Local Area Coordination

Looking at practical ways of achieving goals and visions for a good life. Staying stronger for longer and helping to prevent reaching a crisis point

A Local Area Coordinator can provide:

Short term support - providing information and signposting to local services or community groups.

Longer term support - Taking time to help with steps to reaching goals and making positive changes to help lead a happier life

- Spends time to understand a person's strengths and aspirations
- Help set goals
- Connects people to groups informal support
- Will support people to access the right service if required
- Create and support community group
- Listen to ideas from the community

We use

Asset Based Community Development which looks at what the community currently offers. What the community, individuals, families, groups can offer in the future and how they can support each other.

A preventative approach which improves:

Health and wellbeing— feeling safe, strong, staying well and happy

Confidence and self esteem

Opportunities to be involved in the community

Independence

Feeling connected to people so not to feel isolated
